

- Create a [LinkedIn](#) profile. Make sure to add a professional picture, brief description of who you are/your interests, and your educational and contact information.
- Once you add Mason to your education profile, you'll be able to click on Mason's Alumni tab.
- You'll be able to search for/filter through alums by profession, company, or professional schools attended.

- Once you've found someone, send a message to Connect. Here's a sample message you could send:

*Dear Dr. \_\_\_\_\_,  
My name is \_\_\_\_\_ and I'm currently a sophomore biology major at Mason. I found your profile when I was looking for Mason alums working in medicine. I'm hoping to attend medical school in the future and if you're willing, I'd love to connect with you about your experience attending medical school and working as a physician. Thanks for your time.  
Sincerely,*

---

#### People you may know

The screenshot displays six LinkedIn profile cards under the heading "People you may know". Each card includes a profile picture, a name, a degree and year, and a "Connect" button. The "Connect" buttons for the first and third profiles are circled in red.

Profile	Name	Degree/Year	Relationship	Action
