

SUMMER ACADEMIC ENRICHMENT PROGRAM

Spend a summer in the life of a health professions student.

SAEP is an elite six-week summer experience for upper-level college and post-baccalaureate students interested in health careers. SAEP features the following disciplinary tracks:

Dentistry **Medicine** **Pharmacy** **Physical Therapy**

- Learn ways to enhance your academic and clinical skills.
- Explore special topics in healthcare.
- Work in collaborative teams with other aspiring first professions students.
- Be mentored by clinical faculty and primary care specialists.
- Find out how to prepare your application for health school admissions.
- Join a network of over 500 program alumni nationwide.
- And much more...

55% of participants enroll in a professional program of their choice within two years.

28 participants on average graduate with doctoral degrees in healthcare each year.

98% of participants would recommend SAEP.

98% of participants felt SAEP prepared them for professional school.
